WHATSAPP SUPPORT

Between all of it: me, on your
phone, same day.

1 Thyroid & Lifestyle Consultation

We start with a 60-minute deep-dive. You upload your blood report — the app reads the values straight off the page — and we find what has actually been blocking you.

REPORTS READ BEFORE WE SPEAK

ROOT CAUSES, NOT GUESSES

2 Customised Indian Nutrition Plan

Roti, dal, sabzi, curd — the food you already cook, portioned for thyroid health and steady fat loss. In the app and as a PDF, ticked off meal by meal.

3 *Low-Impact Custom Training Plan*

Built around your routine, home or gym. Every movement has a looping demo, easy on the joints, logged set by set — never guessing what to do or how much.

WEEK 6 FEEDBACK

Nice consistency this week. Keep focusing on your morning routine — small, steady habits add up.

REAL-TIME HELP

SAME-DAY REPLIES

FOR THE FULL 90 DAYS

Eating out tonight — what should I pick from a South Indian menu?

7:41 pm

Go for plain dosa or idli with extra sambar, skip the vada. Ask for less oil. Enjoy the dinner — one meal never decides the week.

7:52 pm

Energy was low this morning, skipped the workout. Feeling guilty.

8:03 am

Good call, not a failure — that is the plan flexing, not breaking. Do the seated session this evening if you feel up to it, or we move it to tomorrow.

8:09 am

BONUS

Lifetime access to my private client community — the women who have done this before you, still there long after your programme ends.

Where this lands

The app keeps your Week 1 and Week 12 frames waiting from day one. Ninety days of the system on the left is how the picture on the right happens.
